

KWS CRESWELL

Winter Barley

KWS B105 x KWS Cassia

SEEDING
THE FUTURE
SINCE 1856

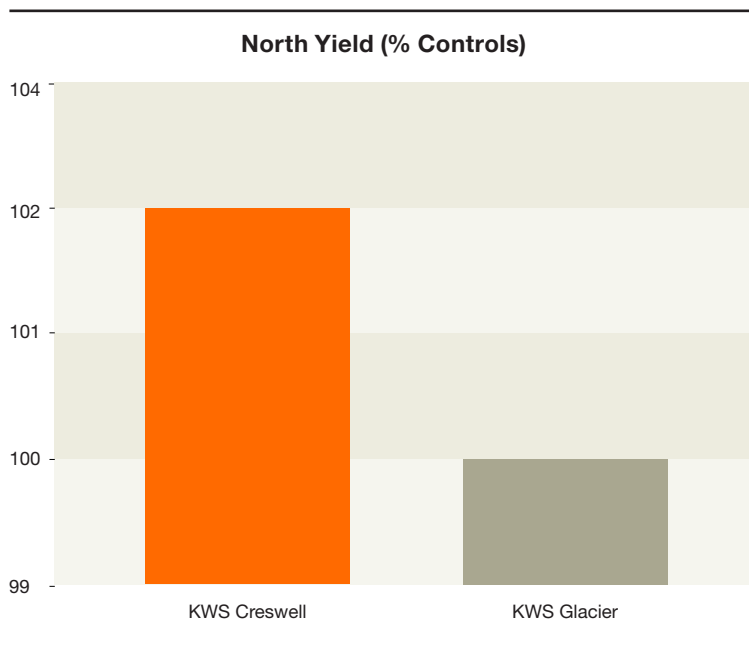

High yielding 2-row feed in the North

- Short and stiff
- Early to mature
- Good specific weight

With its early maturity and ease of harvest inherited from its KWS Cassia parentage, KWS Creswell is ideally suited to the Northern farmer.

It has good *Rhynchosporium* resistance, but net blotch needs watching. KWS Creswell will benefit from a robust fungicide programme.

KWS Creswell	
Yield (% treated controls)	
UK treated yield	100
North yield	102
Disease	
Mildew	5
Yellow rust	[8]
Brown rust	6
Rhynchosporium	6
Net blotch	4
BaYMV	R
Agronomy & Quality	
Resistance to lodging	7
Height (cm) + PGR	85
Maturity (+/- KWS Orwell)	-1
Sp.Wt (kg/hl)	68.0
